

Genesys distributor

Expression of interest form

Genesys International Limited is a manufacturer of speciality chemicals (anti-scalants, cleaners, biocides and flocculants) for the membrane water desalination industry.

Genesys has over forty exclusive distributors worldwide and would like to appoint and support distributors in new territories.

Interested companies must be involved in the water and/or chemicals industry and can declare their interest by completing the attached form and emailing to enquiries@genesysro.com. A technical sales force is required, able to support customers membrane specific requirements and liaise with Genesys technical support. Genesys offer easy to use software packages to assist with chemical calculations and will design training, support and marketing plans to the appropriate level.

Support will include production of a sales and marketing plan, training workshops, and exhibitions and in field visits by Genesys Managers to visit customers and assist with sales. Further details of Genesys people, products and services can be found at www.genesysro.com
